## Testimonials

We have been working with **Sopchy** for 5 years on various projects. From the very beginning of our collaboration, even from the first contact with the owner, Michal Tumilowicz, I sensed professionalism, dedication, and extensive knowledge.

With each new project, I got to know other members of the Sopchy team, which strengthened my belief that this company consists not only of professionals in their field but also of individuals with a deep sense of understanding and emotional intelligence, which is incredibly important when working with people and clients today.

The entire Sopchy team consists of open-minded people, appropriately prepared and focused on their tasks, always ready to provide help and advice. On multiple occasions, during challenging situations, I could count on their support, which was always prompt. In those moments, I felt understood and heard.

Over the past 5 years, the Sopchy team has done an outstanding job for us, including:

- websites
- domain and email box management
- CRM system for court case management
- CRM system for the sales department
- comprehensive consulting
- consulting on business innovation concepts
- expert support in the technical description of project documentation

During these years of cooperation, I also had the opportunity to observe Sopchy's development, and in this regard, Michal Tumilowicz and the entire team deserve praise, as Sopchy has consistently made strides forward as a company.

I wish them continued success, and with full confidence and trust in this company and its owner, I can wholeheartedly say, "I recommend them."

If it's IT projects, it's only with Sopchy.

**Lukasz Sroka**

**CEO at Griffin Sp. z o.o.**
