Testimonials

We have been working with **Sopchy** for over 2 years now. The Sopchy team brought our idea of custom software for efficient and convenient appointment booking with our specialists to life. Not only did they implement solutions that are convenient for our patients, but they also enabled the operation and improved the functioning of four facilities in different locations. The implemented solution allows us to scale our business quickly, thanks to the ease of adding new locations to the software.

In addition to an excellent product, we are grateful to Sopchy for exemplary communication, responsiveness, and openness to every new idea we want to implement. We also highly value their initiative in improving the functionality of our system.

The pricing of their services is always appropriate for the quality provided and is transparent. We highly recommend working with Sopchy and intend to continue using their services in the future.

Jan Kus (shareholder)

Malgorzata Wozniak (shareholder)

I wish them continued success and with full confidence and trust in the company and its owner, I can wholeheartedly say: "I recommend them."

If it's IT projects, it's only with Sopchy.

Lukasz Strub
CEO at Sopchy Sp. z o.o.
