

Testimonials

We have been working with Sopchy for 4 years now. We began our collaboration by designing and implementing a custom website that makes our brewery stand out from the competition.

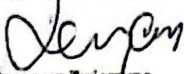

Currently, we maintain ongoing cooperation, continuously modernizing and developing the project together.

After 4 years of working together, we can say that Sopchy responds swiftly to emergencies, is flexible, business-empathetic, creative in coding where other companies give up, and a pleasure to work with.

We highly recommend Sopchy as a partner for large and demanding businesses.
